Project Description	:	This is a portal developed for Heritage agents. Using these agents can create quote, buy policy and also renew the policy for their customers. Same code base is enhanced for NBIC with new business requirement for flexible and timely delivery of application.
My Work Role	:	We are developing code as per requirements. Developing schema using oracle 10g and JSON scripts. Solving issues raised by customer and internal testers. Working on CRs raised by customer. Developing various types of documents such as design documents, Unit test plans, time estimation and analysis documents.

Projects Name	:	FALCON – (Finance, Retail, Telecom, Energy & Utility, HealthCare) (Transversal BU)
Project Duration	:	November 2017 to June 2018
Role	:	UI Developer and UX Designer
Technologies	:	Html5, CSS3, jQuery, Java-Script, Asp.Net, SQL Server, XML, SASS, AngularJs.
Responsibilities	:	a) Requirement gathering and analysis b) UI Development and Design c) Unit Testing
Project Description	:	It's an internal web application which provides a solution for the different flow of actions to recover business data discrepancies for all the sectors like Energy, Utility, Chemicals, and Telecom, Retail/ e-commerce and Transport etc. Sector content rich FALCON.
My Work Role	:	Design Mockup and Wireframe using Photoshop's as per requirement. After Final design converts this wireframe in web pages. Develop application using the latest technology. Also, do low-level unit testing like Cross-browser compatibility loading time etc.

➤ Projects List

Project Name	Description	Development Tool's
Avance Estimato (Transversal BU)	Online, web-based application to help Solution architects generate the Staffing Plan and ADMT data for various deals. Use Kendo UI for design layout. Show data in graphical format like Donate Chart, Pi chart, Bar Graph.	Kendo UI, CSS3, jQuery, JavaScript, Kendo Control, SQL Server, XML, Web Service.
EILM- ALM Unbolted (Transversal BU)	It's a web application Survey Game to for the user to under the actual requirement. Application Landscape Management best practices play a key role in securing competitiveness of organizations (Consistent ability to win in the marketplace) and realizing world-class performances	Html5, CSS3, AngularJs, Animation, Info graphics.
ECAMS Apps	It's SharePoint base front-end Application. It's simple to for search file, add file basically its dynamic application for client data store & update	SharePoint Design, HTML5, JSON, CSS, Photoshop for Icons, JQuery, web service.
Application Level Pricing	Application Level Pricing (ALP) is a web-based Application designed to be used by the CAMS Solution Architects in order to compute the price for each application within a portfolio.	HTML5, CSS3, JQuery, Javascript, SQL-Server, Web Services, Photoshop, Wordpress.
eCAMS	Online, web-based application to help Solution architects generate the Staffing Plan and ADMT data for various deals	Telerik, HTML5, CSS3, JQuery, Javascript, SQL-Server, Web Services, Photoshop, MVC
Value Proposition Shaping (VPS)	Process definitions through the creation of process workflows, procedures, and related artifacts templates, checklists, guidelines etc.	HTML5, CSS3, JQuery, Javascript, SQL-Server, Web Services, Photoshop, MVC
Pit Stop (Admin & App)	This is a web application for the Levers are represented service strategy aligned to the Characteristics of the Application portfolio segment to see what can be done additionally to enhance performance in client engagement	.NET, C#, HTML5, CSS3, JQuery, Javascript, SQL-Server, Web Services, Photoshop, Highcharts.
Benchmarking Tool	This web application tool This calculator helps to put together a list of key benchmarking metrics delivered in IT engagements and provides a guidance check on the health of the client vis-a-vis best.	.NET, C#, HTML5, CSS3, JQuery, Javascript, SQL-Server, Web Services, Photoshop, Highcharts.

Personal Assets

- Ability to adopt new technologies.
- Ability to handle multiple tasks and work independently as well as in team also able to manage and execute multiple projects simultaneously.

Training & Certification

- DevOps (Inter Certification), HTML5 & Bootstrap Framework
- AngularJs (Inter Certification) & Photoshop CC (Inter Certification)

OBJECTIVE

- To obtain a position as a Web Designer in a challenging environment that utilizes team-work effort for researching and learning. To get technical experience in IT industry.

PERSONAL INFORMATION

Date of Birth : September 30th, 1989.

Marital Status : Married.

Languages knew : English, Hindi, and Marathi.

Sincerely,

Prasad S. Patil
