EDUCATIONAL CREDENTIALS

Sr. No	Educational Degree	Year of Passing	% Marks
1	Master in Computer Application (MCA)	2014	63.21

PROJECTS

➢ **Web Base Application**

Projects Name	:	**FALCON (Transversal BU)**
Project Duration	:	November 2017 to till date
Role	:	UI Developer and UX Designer
Technologies	:	Html5, CSS3, jQuery, Java-Script, Asp.Net, SQL Server, XML, Bootstrap, SASS, AngularJs.
Responsibilities	:	a) Requirement gathering and analysis b) Front End Development c) UI Design d) Unit Testing
Project Description	:	It's an internal web application which provides a solution for the different flow of actions to recover business data discrepancies for all the sectors like Energy, Utility, Chemicals, and Telecom, Retail/ e-commerce and Transport etc. Sector content rich FALCON.
My Work Role	:	Design Mockup and Wireframe using Photoshop's as per requirement. After Final design converts this wireframe in web pages. Develop application using the latest technology. Also, do low-level unit testing like Cross-browser compatibility loading time etc.

Projects Name	:	**Automation of Business BOT (Transversal BU)**
Project Duration	:	November 2016 to till date
Role	:	UI Developer and UX Designer
Technologies	:	Html5, CSS3, jQuery, Java-Script, Asp.Net, Telerik, SQL Server, Bootstrap, Web Service.
Responsibilities	:	a) Requirement gathering and analysis b) Front End Development c) UI Design d) Unit Testing
Project Description	:	It's a web application which provides a solution for the different flow of actions to recover business data discrepancies for all the sectors like Energy, Utility, Chemicals, and Consumer Products, Retail and Transport etc. Sector content rich Automation BOTs in ADM aligned to arresting revenue leakage for clients while reducing IT support tickets.

My Work Role	:	Design Mockup and Wireframe using Photoshop's as per requirement. After Final design converts this wireframe in web pages. Develop application using the latest technology. Also, do low-level unit testing like Cross-browser compatibility loading time etc.

Projects Name	:	**Transition Hub (Transversal BU)**
Project Duration	:	August 2015 to Nov-2016
Role	:	UI Developer and UX Designer
Technologies	:	Html5, CSS3, jQuery, Java-Script, Asp.Net, Telerik, SQL Server, XML, Linq, Web Service.
Responsibilities	:	a) Requirement gathering and analysis b) Front End Development c) UI Design d) Unit Testing
Project Description	:	The Transition Portal is a web-based tool used for keeping track of projects in transition. It can be used for tracking the Staff (SME, Staff Transfer candidates or KTR), Creating knowledge objects, creating Knowledge Acquisition Plans, Tracking KT Sessions and reporting. This contains multiple dashboards. High charts and graphs to show the reports of client projects.
My Work Role	:	Design Mockup and Wireframe using Photoshop's as per requirement. After Final design converts this wireframe in web pages. Develop application using the latest technology. Also, do low-level unit testing like Cross-browser compatibility loading time etc.

Projects Name	:	**eCAMS (Transversal BU)**
Project Duration	:	Jan 2016 to till date
Role	:	UI Developer and UX Designer
Technologies	:	Bootstrap, CSS3, jQuery, Java-Script, Asp.Net, SQL Server, XML, Web Service, Telerik.
Responsibilities	:	a) Requirement gathering and analysis b) Front End Development c) UI Design d) Unit Testing
Project Description	:	It's a web application to automate bid management system, which is being used by Pre-Sales Asset Team, mainly focuses on resource allocation, to automate workflow and different phases of a deal.
My Work Role	:	Design Mockup and Wireframe using Photoshop's as per requirement. After Final design converts this wireframe in web pages. Develop application using the latest technology. Also, do low-level unit testing like Cross-browser compatibility loading time etc.

Projects Name	:	**EILM- ALM Unbolted (Transversal BU)**
Project Duration	:	Jan 2017 to Oct-2017
Role	:	UI Developer and UX Designer
Technologies	:	Html5, CSS3, AngularJs, Animation, Info graphics.
Responsibilities	:	a) Requirement gathering and analysis b) Front End Development c) UI Design d) Unit Testing

Project Description	:	It's a web application Survey Game to for the user to under the actual requirement. Application Landscape Management best practices play a key role in securing competitiveness of organizations (Consistent ability to win in the marketplace) and realizing world-class performances
My Work Role	:	Design Mockup and Wireframe using Photoshop's as per requirement. After Final design converts this wireframe in web pages. Develop application using the latest technology. Also, do low-level unit testing like Cross-browser compatibility loading time etc.

Projects Name	:	**Easy Live Trade(Market Trading Site)(KSCPL)**
Technologies	:	Html5, CSS, jQuery, Java-Script, Asp.Net, C#, Bootstrap.
Project Description	:	The web Application contains static & dynamic web pages. This site about shares markets. It contains login page, Remarks, Done Customer List, and Follow up page etc web pages.
Role & Responsibilities	:	Create a template of all pages/screens of the application using Photoshop. Convert PSD in web for using HTML5, CSS3, jQuery, JavaScript.

➢ **Projects List**

Project Name	Description	Development Tool's
ECAMS Apps	It's SharePoint base front-end Application. It's simple to for search file, add file basically its dynamic application for client data store & update	SharePoint Design, HTML5, JSON, CSS, Photoshop for Icons, JQuery, web service.
Application Level Pricing	Application Level Pricing (ALP) is a web-based Application designed to be used by the CAMS Solution Architects in order to compute the price for each application within a portfolio.	HTML5, CSS3, Jquery, Javascript, SQL-Server, Web Services, Photoshop, Wordpress.
Avance Estimato	Online, web-based application to help Solution architects generate the Staffing Plan and ADMT data for various deals	HTML5, CSS3, Jquery, Javascript, SQL-Server, Web Services, Photoshop, Kendo, MVC
Value Proposition Shaping (VPS)	Process definitions through the creation of process workflows, procedures, and related artifacts templates, checklists, guidelines etc.	HTML5, CSS3, Jquery, Javascript, SQL-Server, Web Services, Photoshop, Kendo, MVC
Digital Assessment (Ready 4D)	Digital Assessment is a web application for assessment of Application Portfolio to make an effective transition to the Digital World.	.NET, C#, HTML5, CSS3, Jquery, Javascript, SQL-Server, Web Services, Photoshop
Pit Stop (Admin & App)	This is a web application for the Levers are represented service strategy aligned to the Characteristics of the Application portfolio segment to see what can be done additionally to enhance performance in client engagement	.NET, C#, HTML5, CSS3, Jquery, Javascript, SQL-Server, Web Services, Photoshop, Highcharts.
Benchmarking Tool	This web application tool This calculator helps to put together a list of key benchmarking metrics delivered in IT engagements and provides a guidance check on the health of the client vis-a-vis best.	.NET, C#, HTML5, CSS3, Jquery, Javascript, SQL-Server, Web Services, Photoshop, Highcharts.

Personal Assets
- Ability to adopt new technologies.
- Ability to handle multiple tasks and work independently as well as in team also able to manage and execute multiple projects simultaneously.

Training & Certification
- DevOps (Inter Certification) , HTML5 & Bootstrap Framework
- AngularJs (Inter Certification) & Photoshop CC (Inter Certification)

OBJECTIVE
- To obtain a position as a Web Designer in a challenging environment that utilizes team-work effort for researching and learning. To get technical experience in IT industry.

PERSONAL INFORMATION

Date of Birth	**:**	September 30th, 1989.
Marital Status	**:**	Single.
Languages knew	**:**	English, Hindi, and Marathi.

Sincerely,
Prasad S. Patil
